Versatile Frontend Engineer

Dedicated Frontend Engineer with a passion for crafting seamless user experiences through cutting-edge web development techniques and intuitive interface design. With a solid foundation in HTML, CSS, and JavaScript, combined with proficiency in modern frontend frameworks like React and Tailwind, I specialize in translating design concepts into functional, responsive, and visually appealing websites and applications. Experienced in collaborating closely with UX/UI designers and backend developers, I thrive in team environments where I can contribute my technical expertise to deliver high-quality solutions that exceed user expectations. Proactive and detail-oriented, I stay abreast of emerging technologies and best practices to continuously enhance my skill set and drive innovation in frontend development.

Education

Tribhuvan University

BE: Computer Engineering

May 2021 - May 2025

Kathmandu Engineering College

Skills

1. Javascript(React Js ,Node Js)
2. Typescript
3. CSS(Tailwind)
4. Python(Flask)
5. Firebase
6. HTML
7. Git,Github, JSON
8. Vercel
9. Frontend Development,Problem Solving,User Experience (UX)
10. REST APIs

Projects

Facial Recognition Attendance(Python,K Nearest Neighbors algorithm) *[Github](#):

- Built a fully functional full stack web app as a minor project where users can interact and take attendance through facial recognition with the help of KNN algorithm.
- Utilized Haar CascadeClassifiers in Python to simulate possible outcomes under various scenarios.

Full stack Netflix Clone(React Js, Firebase) *[Github](#) :

- Built a full stack Netflix Clone where users can interact scroll and watch movies.
- React Js for frontend , Firebase for authentication and The Movie Database as an API.

Others: [Google Gemini Clone](#), [Tailwind Portfolio](#)

Extra Activities

- Participation in Youth Empowerment and Skills(YES!+) or THE ART OF LIVING
